## Our Company

We are Barbara & John Torrence. Since 1996, we have been operating **A Stitch Above Custom Embroidery** with the mission to provide our customers the best quality product and service possible. While the promotional garment industry has adopted embroidery as the technique of choice over the last ten years, table drapes and hanging banners remained a screen-printed product due to a lack of technology available to produce these items in embroidery. We developed our own process for creating quality embroidered table drapes and hanging banners, bringing full-color dimension to your public displays. We have been producing these one-of-a-kind embroidered table drapes and hanging banners for an ever-growing population of schools, hospitals and corporations. We continue to research new, innovative methods to provide our customers unique and beautiful displays.

Today we enjoy the loyalty of returning customers throughout the United States, Canada and Europe. We look forward to many more years of supplying you with custom embroidered table drapes and hanging banners – alive with texture and eye catching visual effects – that you can be proud to display. Call us today to discuss how we can create a show-stopping table drape and banner for your organization.
