

That's Alright
Bill Robinson

1.

We are constantly behind
Those who win
But we don't mind,
When we see the lives they find.

I don't even say we're right
Or if we can last the night
But if we're wrong,
Well, that's alright!

Chorus

We may even miss the light
But if we do,
Well, that's alright!

2.

Come and join us
In a dance!
C'mon, brother, take a chance—
Join our magical romance!

Lord, I see it in your eyes,
Sister, it is no surprise
Because you finally realize!

Chorus Repeat

3.

I see that you are blue
And you ask me what to do.
Well, I'll show you what is true.

Life can be just to bring
Happiness in everything
When you open up and sing!

Chorus Repeat

Bridge

Love, love – do!

4.

Take the hand
That's offered you.
That hand can pull you through,
Yeah, when nothin' else will do.

Love and we will take you in,
A new life you will begin,
And the song will never end!

Chorus Repeat
