CACCS

**A Support Group
for Carcinoid
Cancer Survivors
and Their
Families**

**Capital Area Carcinoid
Survivors (CACCS)**

ATTENTION — DC, Maryland, Virginia and Eastern USA Carcinoid Cancer Survivors

We invite you to attend the next meeting of the Capital Area Carcinoid Survivors (CACS)

CACS meetings are held on one Saturday (often the 3rd Saturday)

each month from approximately 10:00 am to 12:00 noon at the Life With Cancer Family Center®, which is located near Inova Fairfax Hospital.

If you plan to attend, please contact the director on duty (a carcinoid survivor or caregiver—see our web site) and let him or her know that you are coming so that he or she can arrange for properly sized facilities.

Programs

We continue to grow and have excellent attendance at our meetings. In February, 2002, a speaker from EntreMed gave us an interesting update on progress with the promising new cancer-fighting drug Endostatin. At each meeting, some folks go away with new ideas to deal with problems and discomforts that they and loved ones have.

This group is not only for carcinoid survivors themselves but also for "partners" or other caregivers. At each meeting, they too have a chance to share about their issues.

This is not a group of "whiners!" We have varying degrees of this illness, and one of our members is a 26-year survivor. We have a number of highly skilled people on board, including a former 15-year-long area president of the American Cancer Society, a lawyer and a CPA or two.

We are in contact with Novartis, the maker of Sandostatin, and we intend to push for more research on this disease.

We also want to educate the community around us about carcinoid cancer and syndrome.

If you share our concerns, please do join us in these efforts!

Meeting Location

Life with Cancer Family Center®
2832 Juniper Street
Merrifield, VA 22031
703-698-2841
