JL	Cenveo, Inc. Freescale Semiconductor ON Semiconductor	I have worked with Mark at both ON Semiconductor and Freescale Semiconductor. Mark's knowledge of server applications at Freescale Semiconductor resolved networking issues reducing down time for the team. He defined and streamlined processes that were not in place, in addition to troubleshooting our problems at a moment's notice.  Manager
BJ	Freescale Semiconductor	Mark's support of our short term project was exemplary. His Project Management skills were excellent. When added to his consistent follow through with international team members, it allowed us to complete the project ahead of schedule.  Manager
JN	Freescale Semiconductor	Mark gained the trust and respect of international applications engineers at Freescale Semiconductor via Cenveo consulting where he acted as the FAQ application manager. He enthusiastically worked as the system administrator of the Unix-based network application and wrote the user documentation for this tool as well as procedures for content creators. Mark kept to schedules, worked efficiently, and was pleasant to work with.  Manager
TT	Freescale Semiconductor	Mark took the initiative on a critical project for information management and tackled its design issues right away. Mark was always prompt in responding to my questions, and he patiently explained details again and again for complex problems where the operation and functions were not obvious from a first sitting. Through his dedication and attention to detail, he was able to bring the project to completion.  Engineer
SF	eTelecare Global Solutions	You did a fantastic job. Thanks for coming in at a critical time in the project and helping out. We couldn't have done it without you. Thank you Mark.  Director of Network Engineering
SM	Honeywell Process Solutions	Mark is a person who will consult with experts in other fields, which I find to be an important trait in network engineering. He is always on time with his projects and within budget. Mark is ambitious; he always updates his skills to those the market requires.  Network Writing Consultant
