Wednesday, May 14, 2008

We meet for a buffet breakfast prior to the formal dressing for judging today. These are the same students that we have been seeing in casual clothes all week? What an impressive group that headed over for the first session of judging. Everyone seemed prepared and more than ready to start the interviews. This is to be the culmination of many months of study and work on their projects. Now is the time to shine and enjoy the fruits of their labor.

The adult contingency meet the students for a lunch break between the judging sessions and it gave them a chance to have food for the body and emotional support. Their spirits were good and seemed to be enjoying the experience. It was the same when they came back to the room 6 hours later when judging was over. They were relieved, hungry and ready to relax. They are off to the student's mixer tonight after pizza and salad in the room of the Muller's.
