

Saturday, July 16 We flew from Phoenix to Seattle. Andy and Joan greeted us at the airport and after dinner we took in the sunset and Mt. Rainier from the Space Needle.

Sunday, July 17 We joined the charter flight from Seattle to Juneau where we were greeted by the Sea Bird welcoming crew. After a bus ride to see the Mendenhall Glacier, we were all delivered to the ship. Seeing the Sea Bird at the dock next to what is the usual type of cruise ship, we knew at once we had made the right decision to sign up for this expedition.
