Local History:

Manzanillo remains a little-known hideaway of seaside treasures. Since 1825, the city has served primarily as a port that connects Mexico to the west. There are just a few resorts -The Bahia de Manzanillo areas has most of the resorts, porting seaside activities along with elegant accommodations & dining. The Bahia de Santiago is slightly less traveled by tourists.

A visit there results in a deeper experience with the local way of life.

Although tourism is an important part of the economy, the area isn't widely promoted allowing it to remain absent of crowds. It is a very subdued, sleepy place with welcoming people who love to share the beauty & history of their homeland.
