

BRUMBACK AWARD FOR OUTSTANDING ACHIEVEMENT IN ALZHEIMER'S RESEARCH

In 1998, the Alzheimer's Association, Oklahoma Chapter established the BRUMBACK AWARD FOR OUTSTANDING ACHIEVEMENT IN ALZHEIMER'S RESEARCH to recognize investigators whose research has significantly advanced the understanding of Alzheimer's disease. The award was established in honor of Roger A. Brumback, M.D., who was the David Ross Boyd Professor of Pathology and Director of the Diagnostic Center for Alzheimer's Disease at the University of Oklahoma Health Sciences Center until December 2000.

Winners of this award have been:

1998 Peter Spencer, Ph.D., FRCPATH

Senior Scientist and Director of Center for Research on Occupational and Environmental Toxicology and Professor of Neurology in the School of Medicine at the Oregon Health Sciences University in Portland, Oregon

1999 Paula Grammas, Ph.D.

Alfred M. Shideler Professor of Pathology and Director of Oklahoma Center for Neuroscience, University of Oklahoma Health Sciences Center

2000 Jordan J. N. Tang, Ph.D.

Member and Head, Protein Studies Research Program and J.G. Puterbaugh Chair in Medical Research, Oklahoma Medical Research Foundation
